SOPs for Creator Onboarding

1) Made Them Feel Selected

Hey Sandhya
We went through a lot of profiles, and yours really stood out. We've specifically chosen you for a collaboration on our flagship product the Teeth Whitening Foam.

We'll also be putting our own money behind promoting your reel to boost its reach.
However, considering your recent engagement levels, the maximum we can offer is ₹2,500 that's the upper limit set by my manager.

If you're up for it, we'd love to take this forward with you! 20:55

2) Tapped Into Their Pain Points

Hey,zain here.My starting minimum commercial is 2500

22 Jul, 12:44 pm

Hey Zain,
Just wanted to share that your collaboration reels are currently performing on the lower end in terms of engagement. That said, we'll be putting in our own budget to boost the reel and run ads to increase its visibility and reach.

Given this, the offer we've made is the best we can extend at the moment

22 Jul, 2:21 pm

Okay,we will go on with this collab

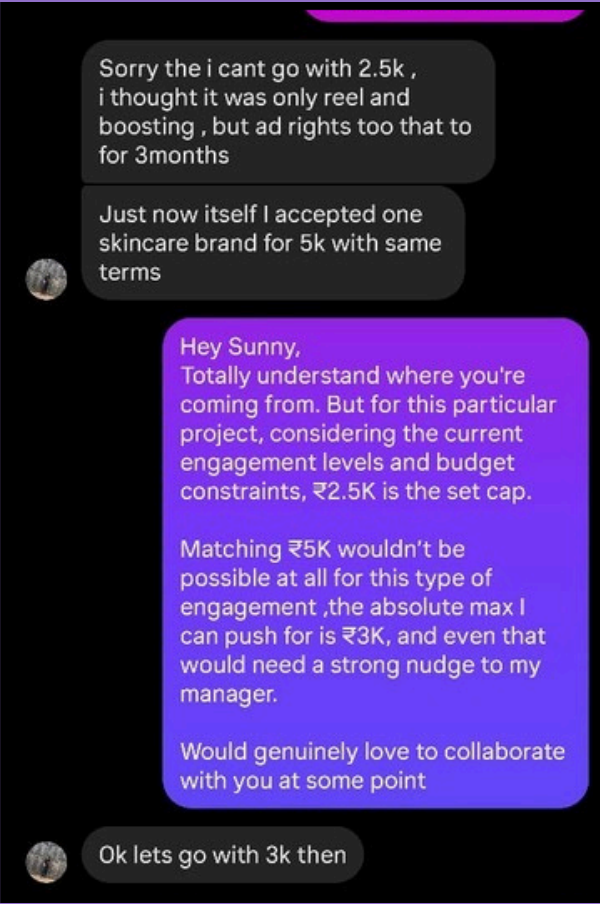

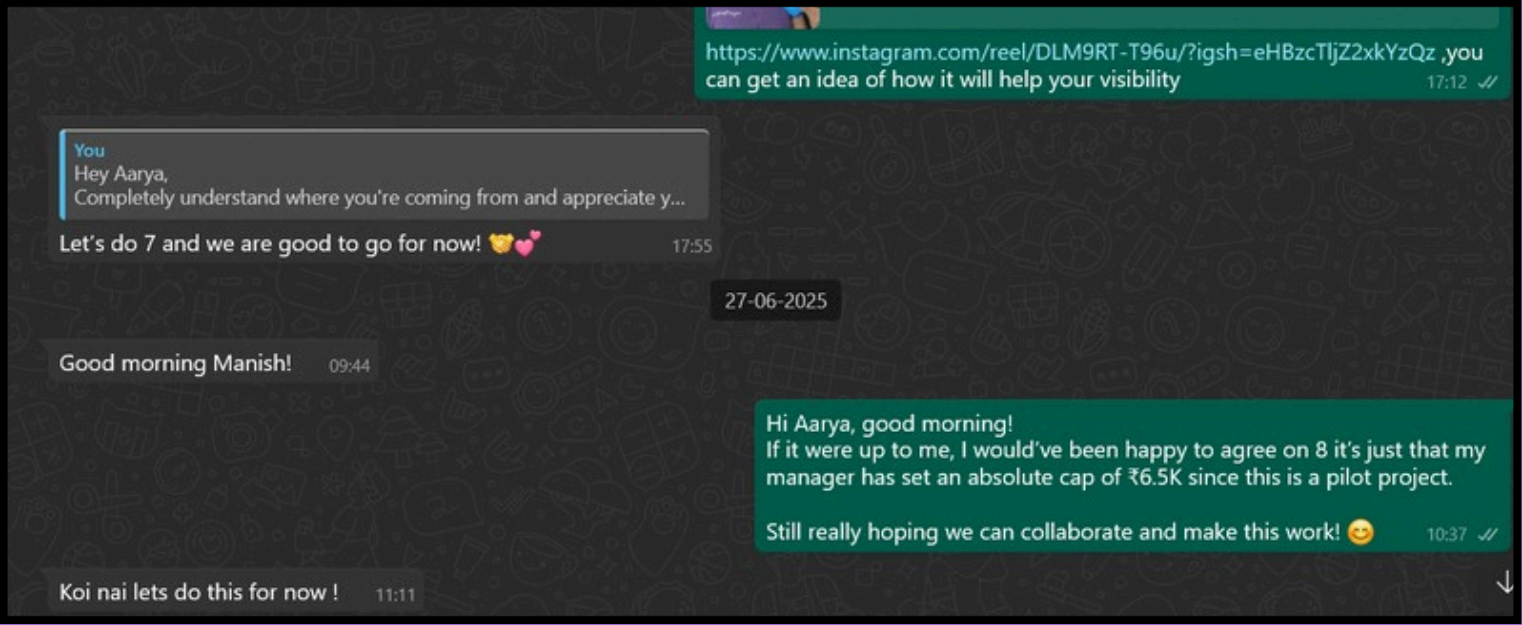

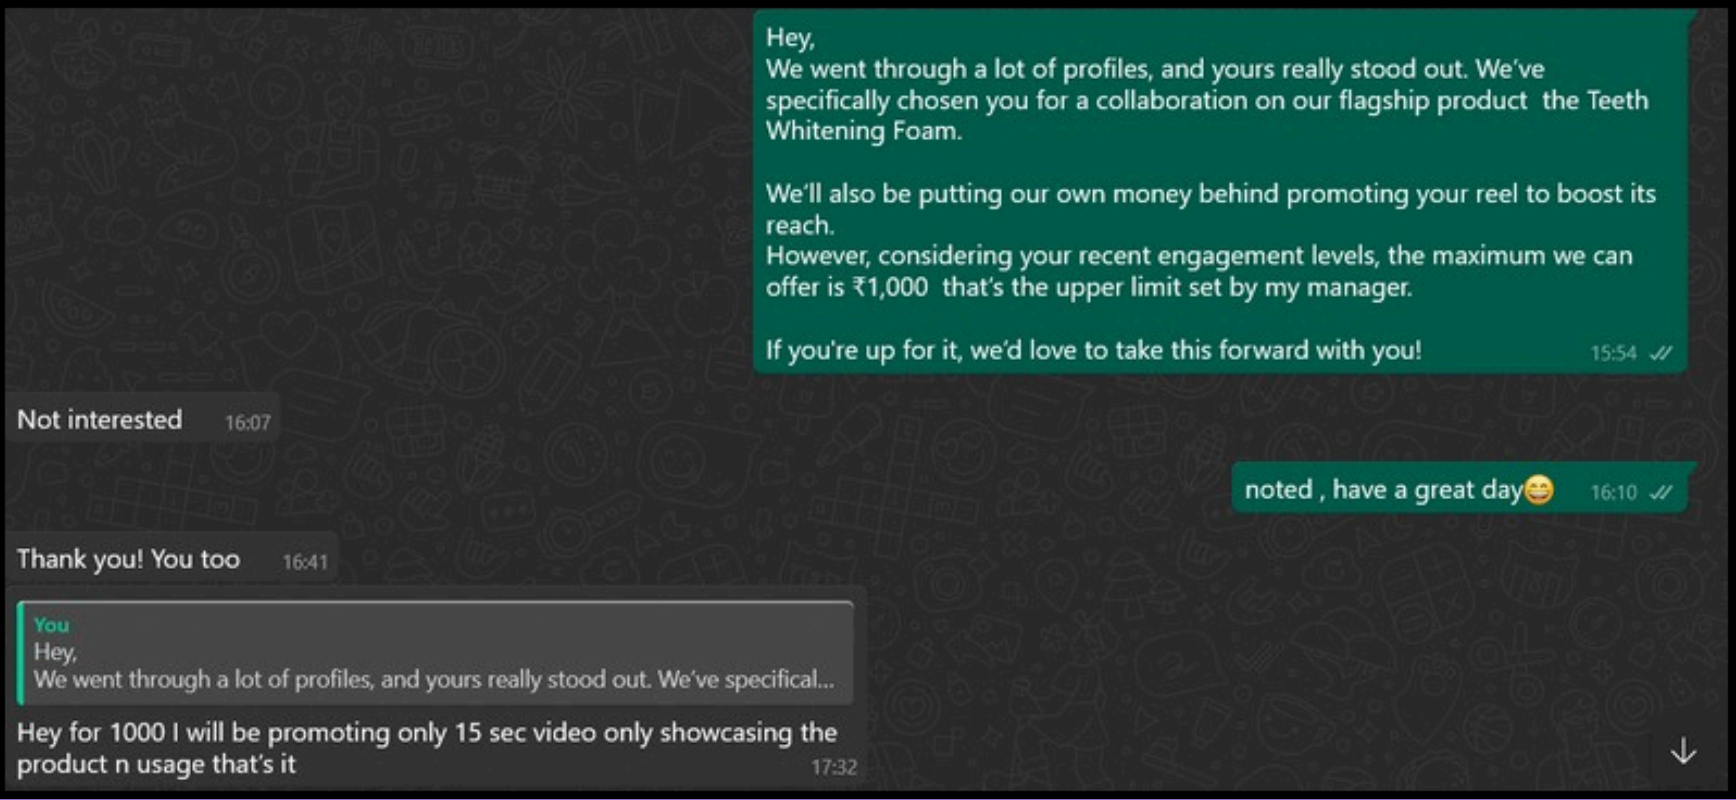

my starting rate is ₹5,000. Let me know if that works for you. 22:43

28-07-2025

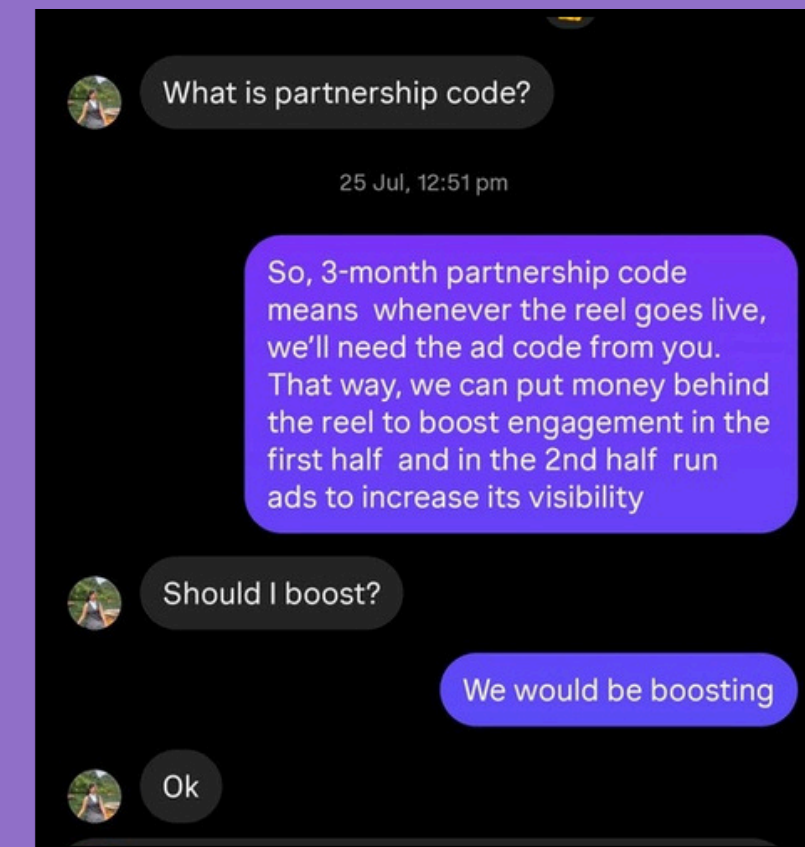

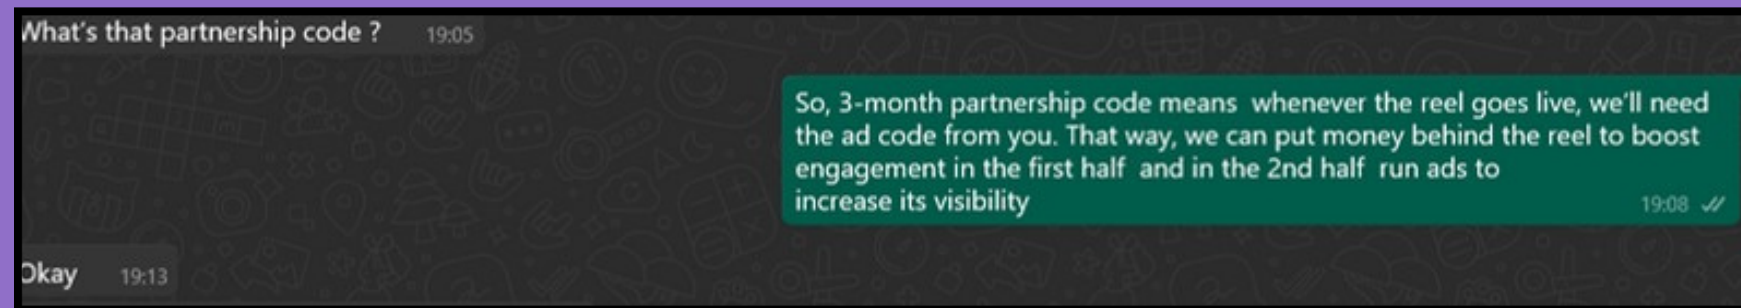

Hey!
I called up my manager ₹4,000 is the absolute max we can do for this project. Considering your current follower count is in the lower thousands and we'll also be putting our own budget into boosting the reel, this is the ceiling for this one. Let me know if that works so we can close and get started! 16:40 ✓

Okay 🙌 let's do 16:41

3) Final Push Strategy

4)Share Just Enough

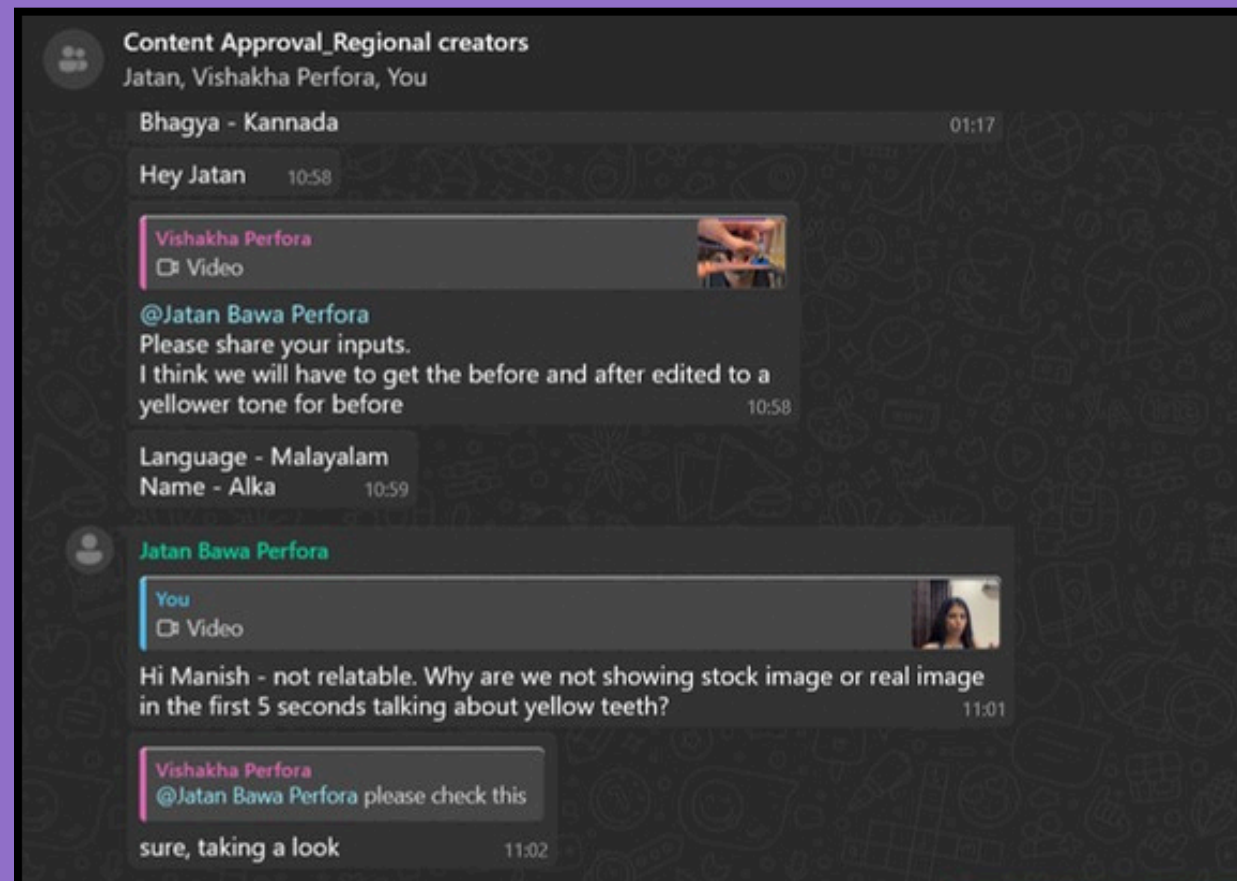

And That's How I Onboarded **33** Creators

Content Creation

Learnings

- Learned how to create curiosity and retain viewer attention
- Understood how to make viewers watch reels irrespective of whether it's an ad
- Say yes to new experiences

7 Lessons Learned

- Onboarding content creators is just the start ,consistent follow-ups are key
- Using sheets >> verbal communication ,keeps things organized, even when it's hectic
- It's important to understand the department you're working with to align better
- Always maintain a pipeline of creators , one rejection shouldn't hold things back
- Always review content that didn't perform well , understand what went wrong

THANK YOU:)
